## WORK EXPERIENCE

---

### PhD Candidate

UiT The Arctic University of Tromsø in Norway

02/2018-07/2022

- Teaching assistant in Mineralogy, structural geology, and polarization microscopy
- Calibration of high-pressure/high-temperature laboratories
- Setup of mineral collection database
- Research on PhD project
- Visiting conferences in Bergen, Reykjavik and online

### Research Stay

Institut des Science de la Terre d'Orléans in France

10/2019-03/2021

- Experimental studies using internally heated pressure vessels, scanning electron microscopes, laser ablation inductively coupled mass spectrometers and electron microprobe analyzer
- Data analysis and visualization using Python
